## **REASONS FOR ALLOWANCE**

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 9/26/2003 has been entered. After entry of the response filed 9/26/2003, claims 61, 66-72 are pending in the instant application.

The following is an examiner's statement of reasons for allowance: the prior art does not teach or suggest the specific HSV/AAV virus recited in the allowed claims (i.e. rHSV d27.1rc). The instant specification teaches the construction and use of a recombinant HSV virus comprising sequences encoding AAV rep and cap proteins and which also comprises a deletion of sequences encoding the HSV ICP27 protein (e.g. Section 9.1.3, page 64 of the instant specification). Applicants' amendment of the claims and specification in the response filed 9/26/2003 has obviated the outstanding grounds of rejection and satisfied the Deposit requirements for the claimed virus.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

*Drawings*

It is noted that a PTO Form 948 was mailed along with the first action on the merits mailed 7/5/2000. A copy of this form is attached to the instant action. As yet, applicants have not responded to the Draftsperson's objections to the drawings. Replacement drawings are required within three months of the mailing of the Notice of Allowability.

*Conclusion*

Claims 61 & 66-72 are allowed (now claims 1-8).
